PRESIDENT'S MESSAGE

It is with much pride that I review the activities of QCWA for 1982. We have accomplished a number of things and have even more activities and accomplishments in progress. For the first time QCWA has been honored by appointment of one of its members to the National Industry Advisory Committee. Ethel Smith, K4LMB, is representing QCWA and amateurs and will be helping to shape regulations and actions of the Government with respect to communications. As I write QCWA Membership is actively balloting on the proposal to enlarge representation on the Board of Directors. This proposal, if adopted, will provide a larger group of active officials who are interested and capable of taking on projects which can go far to advance Amateur Radio & QCWA.

It was recently announced that QCWA has formally chartered its 139th Chapter...the Laurentian Chapter, in Ontario, having that honor. It has always been acknowledged that QCWA's growth and strength has been enhanced by its far-flung local Chapters. In recent months the Chapters have become active participants in QCWA affairs and we are looking forward to even more activity in the coming years. Twenty-three new Charters have been issued since publication of the QCWA 1979 Membership Directory. We shall continue to do all we can to encourage this growth and to insure that the Chapters have a clear voice in the future of QCWA!

Membership in our organization continues to be sought by more and more Amateurs. We feel that QCWA has and continues to represent the highest goals in amateur radio....fellowship among all amateurs....responsible operation....willingness to accept the challenges facing Amateurs and the proven ability to cooperate with agencies of our Government in administering laws that govern all of us. Having a part in these and other activities continues QCWA's roll in Amateur Radio from the days of the spark transmitter right into the future of interplanetary communication. Whatever the future, I am confident that QCWA will be on hand to participate, record and commemorate the work and victories of Amateurs of the future.

It is the hope of your Officers and Board of Directors that this 1982 Membership Directory will serve you well.

Stuart Meyer

QCWA has traditionally included a listing of all known QCWA Silent Key Members as a part of the regular QCWA Directory. We have been forced to omit this listing in this 1982 roster simply because of mailing costs. Bulk mail must be kept under 15.99 ounces per piece, and with our increasing membership each year, the additional pages needed for the Silent Key list put us over the top. As a consequence, the Board of Directors have authorized a special publication to be issued later in the year which will list all Silent Key Members. The special issue will be a Memorial Issue, providing full information on the Silent Key Memorial Fund from its inception as well as the Silent Key list.

One grade of Membership in QCWA is that of our Honorary Members. From time to time the Board names a person who had contributed greatly to the advancement of Communications to Honorary Membership in QCWA. Those presently holding that honor are:

HONORARY MEMBERS

George E. Sterling	Peaks Island, Maine
Richard E. Wiley	Arlington, Virginia
Rosel H. Hyde	Washington, D. C.
Col. W. J. Baird	Alexandria, Virginia
Robert E. Lee	Washington, D. C.

QCWA VITAL STATISTICS

QCWA has been growing at an unprecedented rate. At the present time our membership stands at approximately 9600 (changes daily) with new membership numbers now at something over 16200! On the somber side, our listing of Silent Key members requires 41 pages 8½-11 inches, one column. At present our Silent Key Memorial Fund has grown to have close to \$15,500 dollars. The Fund was initiated at the 1977 National meeting at Seattle. QCWA will celebrate its 35th Anniversary on December 5, 1982. Our most recent National Conventions have been held at the following locations: 1980, Orlando, FL; 1981, Cleveland, OH; 1982, Nashville, TN; 1983, Denver, CO.

The first official meeting was held on Friday evening, December 5, 1947, in New York City, at which time the following old-timers were elected as Officers of the newly founded Quarter Century Wireless Association, Inc.... John DiBlasi, President; George T. Droste, W2IN, Vice-President; Leon A. Hansen, W2FIT, Secretary and David Talley, W2PF, Treasurer.

QCWA CHAPTER AFFILIATIONS

Much of the growth and dynamic character of QCWA is a direct result of the Chapters chartered across the continent and across the world. Chapters are encouraged to make possible person to

person contact between we old-timers and to permit meetings between members without long and costly traveling. The first Chapter was formed in 1951 and the last one 30 years later in 1982. The Chapters are self-governing, being required only to operating in accordance with QCWA principles and to make regular reports to headquarters as to membership status, activities and so forth. Through the help of the Chapters, the QCWA Silent Key Memorial Fund is growing rapidly and with the Chapters to inform and challenge the members, we find greater participation in QCWA activities across the World. Chapters have been assigned Chapter numbers that have been issued on the basis of the date of the Charter. At present 139 such authorizations have been granted and approved by the Board of Directors. The following is a listing of all Chapters Chartered through the years. Most are still active.

The QCWA Constitution and By-Laws, as with any living organization, is in a constant flux as it is modified to fit specific changes or procedures in accordance with the desires of the members or dictates of good business operations. The Year 1982, will see a number of changes. Membership voted on the proposal to increase the Directorships from 5 to 10. The Board made a change in the By-Laws to accommodate family membership fees. Added changes are mandated to accommodate the new directorships ... election procedures will be modified as required. As of June 30, 1982, the document is complete. Future changes will be printed in QCWA NEWS as they are adopted into the Constitution and/or By-laws.

QCWA

Directory of Members

Your 1982 QCWA MEMBERSHIP DIRECTORY is the 14th such volume printed in QCWA's history. Directories were published in the years 1949, 1950, 1952, 1953, 1962, 1964, 1966, 1968, 1970, 1972, 1974, 1976, and 1979. This 1982 Volume is the largest published.

Whereever possible titles and professional designations have been omitted. Sorting has been done by district numbers then by the following three letters AAA-ZZZ and then the two prefix letters in contrary motion. All members with US Zip codes, whether in Hawaii or Puerto Rico are identified by the call district first. Members not sorted in the US group were sorted in the same fashion. Any country with four or more QCWA members have been given a group designation. All others were placed in one group. American members with foreign addresses were given a special group designation. It should be noted that Canadian and other international members who reside in the United States will be found in the appropriate US District, even though their call may be a VE - etc.

The computer is a DEC-10. Typing was done with an IBM line printer using a cotton ribbon. There have been a few requests (2) for summer and winter address being listed. We have not done this because of the problem of mailing. The computer roster is used to provide mailing labels. With permanent listings of two addresses for members, they would receive two publications, two ballots, and so on. The matter could be adapted if we were always notified of the address of each member but we often do not receive word of a change until mail is returned.

The QCWA roster is maintained in the computer at the University of Texas at Arlington. It is added to almost on a daily basis. QCWA now has more than 3000 changes in the roster each year. We are using a Digital LA-36 matrix printer to communicate with the UTA computer. At present our computer consultant is working so that we may use our Northstar in-house computer and the CRT to make all of the regular changes in the roster, and when this is done and checked, it will then be fed directly from computer to computer over land-lines. At present we are operating at 300 baud. Special circuits operating at 1200 baud are available at a considerable increase in cost. These are not yet necessary, but with the continued growth of QCWA, we may soon see them operating.
